PROFILE

Aspiring full stack web developer eager to leverage strong foundational knowledge in web development skills. Equipped with a diverse and promising skill-set in MERN stack web development. Advanced Proficiency in HTML, CSS and JavaScript along with some popular libraries such as ReactJS. Also proficient in back-end services and how to setup as REST API using Node and Express along with the integration of database services such as MongoDB. Able to effectively self-manage during independent projects, as well as collaborate in a team setting.

EMPLOYMENT HISTORY

Nov 2023 — Present

**Web Development Intern, The Sparks Foundation**

Remote

Developed a responsive and interactive full stack web application using my web development skills and also guided my peers to complete their tasks.

My achievements:

1. Designed and Developed 2 full stack web applications from scratch using MERN stack and refined them .
2. Helped 10+ peers by finding bugs and resolving them which helped them make robust web apps.
3. Helped 5+ peers by reviewing their tasks and providing feedback that helped them complete their projects.

## PROJECTS

### Uber Clone

A basic single page web application built with ReactJS that allows users to signin/signup using their google account and mocks booking a taxi as per their requirements. The project tries to mock the working of famous taxi booking application Uber.

Skills : **ReactJS** | **TailwindCSS** | **Firebase**

### BHU-Events-Tracker

A full stack MERN application that allows BHU students to signin/signup and explore the events that are happening around various departments in BHU.They can find and register for these events using the app. The app tries to solve a real-life problem as no such platform exists as of now.

Skills : **ReactJS** | **TailwindCSS** | **NodeJS** | **ExpressJS** | **MongoDb** | **Redux**

### Real-estate-marketplace

A full stack MERN application that allows users to signin/signup and find listed real-estate around them. Users can themselves create a listing and post it on the website.

Skills : **ReactJS**, **TailwindCSS**,**NodeJS** ,**ExpressJS**, **MongoDB**, **Redux**
